## Advanced Endovascular Workshop

This one-day course is aimed at IR and Vascular surgical trainees

Our course is run by a group of experienced interventional radiologists and vascular surgeons involving live case demonstrations, practical sessions and short talks.

### What we cover?

- Live/ recorded case demonstration (EVAR and FEVAR)
- Case-based simulator experience in endovascular procedures (angioplasty, stenting and EVAR)
- CT Angiogram interpretation and EVAR planning
- Discussion on tools and kit used in endovascular procedures.
- Tips & tricks in difficult cases.
